

SAJID ALI

Frontend-Focused Full Stack Engineer | React.js · Next.js · Node.js · TypeScript

Riyadh, Saudi Arabia | Transferable Iqama | Immediate Joiner

[✉ sajidhgn@gmail.com](mailto:sajidhgn@gmail.com) | [☎ +966-57-645-2059](tel:+966-57-645-2059) | [🌐 LinkedIn](#) | [📁 GitHub](#) | [🌍 Portfolio](#)

PROFESSIONAL SUMMARY

Frontend-Focused Full Stack Engineer with 5+ years of experience building scalable SaaS platforms, enterprise applications, admin dashboards, CRM systems, healthcare platforms, and business management solutions using React.js, Next.js, Node.js, TypeScript, and MySQL. Strong experience developing responsive frontend architectures, REST API integrations, reporting dashboards, authentication systems, and role-based access control (RBAC). Experienced working with teams across Saudi Arabia, USA, and Canada. Currently based in Riyadh with transferable iqama and immediate joining availability.

BUSINESS SYSTEMS

Admin Dashboards, ERP Systems, CRM Platforms, Inventory Management Systems, Reporting Dashboards, Business Applications, Authentication Systems, Role-Based Access Control (RBAC), SaaS Platforms, Enterprise Web Applications. AI-Integrated Applications.

CORE COMPETENCIES

Frontend	React.js, Next.js, JavaScript, TypeScript, Redux Toolkit, Context API, React Query / TanStack Query, Tailwind CSS, HTML5, CSS3, Responsive Design, Performance competencies
Backend	Node.js, Express.js, REST APIs, GraphQL, JWT Authentication, RBAC, API Integrations, WebSockets
Database & ORM	MySQL, MongoDB
Testing	Playwright, End-to-End Testing, Debugging, QA
DevOps / Cloud	Docker, GitHub Actions, CI/CD, Vercel, Netlify
CMS / Commerce	Headless WordPress, WPGraphQL, Shopify, Custom Themes
Performance	SEO, Core Web Vitals, Lighthouse, SSR, ISR, Code Splitting, Lazy Loading

PROFESSIONAL EXPERIENCE

Full Stack Engineer (Frontend Focused) — OxCoders June 2024 – Present

Riyadh, Saudi Arabia

Tech Stack: React.js, Next.js, Node.js, TypeScript, MySQL, REST APIs, Docker

- Developed scalable SaaS platforms, enterprise applications, admin dashboards, and business management systems using Next.js, Node.js, TypeScript, and MySQL.
- Improved Core Web Vitals by 45% and consistently delivered 90+ Lighthouse performance scores across all projects
- Implemented secure authentication systems, role-based access control (RBAC), protected admin modules, and user permission management for enterprise applications.
- Built REST APIs and GraphQL integrations for scalable backend services and third-party systems
- Implemented Playwright E2E automation / React Testing Library, significantly reducing regressions in production releases
- Led code reviews, TypeScript migration, and engineering best practices across multiple projects
- Collaborated with cross-functional teams to deliver business-critical web applications supporting operational workflows and internal management systems.

Senior Frontend Engineer — Dycoders July 2023 – May 2024

Remote, USA

Tech Stack: React.js, Next.js, Node.js, TypeScript, MySQL, REST APIs, Docker

- Delivered multiple SaaS applications using React.js, Next.js, Node.js, and modern full stack architecture
- Built reusable component libraries reducing feature development time by 20%
- Built reporting dashboards, real-time business monitoring features, and API integrations for high-traffic SaaS applications.
- Developed Headless WordPress and Shopify solutions improving SEO traffic and conversion rates
- Participated in Agile sprint planning, architecture decisions, and end-to-end release cycles

Frontend Engineer — Tanbits August 2021 – June 2023

Onsite, Pakistan

- Developed scalable React.js and Next.js applications with reusable UI component systems
- Improved application performance to 90+ Lighthouse benchmarks across multiple client projects
- Delivered SSR/ISR applications integrated with CMS platforms, improving SEO and load times

Frontend Engineer — Mdhov July 2019 – July 2021

Remote, Canada

- Developed Shopify and WordPress themes increasing user engagement and conversion rates
- Migrated legacy frontend systems to React.js architecture, significantly improving maintainability and performance

UI/UX Developer — Teambee Designers January 2017 – July 2019

Onsite, Pakistan

- Built pixel-perfect responsive interfaces with high design accuracy across multiple client projects
- Improved page speed and load performance through targeted frontend optimization techniques

FEATURED PROJECTS

OunLab — AI Project Management SaaS

- Built real-time SaaS platform using React.js, Node.js, WebSockets, and OpenAI API integration
- Enabled live collaboration, dashboards, and scalable backend workflows for enterprise users

HealthSIA — Digital Healthcare Platform

- Developed healthcare enterprise applications, reporting dashboards, and admin panels used across multiple clinics to improve operational workflows and patient management.
- Reduced API response time by ~40% through backend optimization and query refactoring
- Streamlined clinical workflows and operational efficiency across departments

ParisianGypsy — eCommerce Platform

- Built full stack commerce solution using React.js, Node.js, Prisma, and MySQL
- Integrated payments, product workflows, and optimized backend queries for performance

EDUCATION & CERTIFICATIONS

Master of Information Technology

Lahore Leads University, Pakistan — 2015

Certifications:

- [Advanced JavaScript Development](#) 
- [Next.js 15 & React – The Complete Guide](#) 

LANGUAGES

English, Urdu, Hindi, Basic Arabic
